Aboriginal Chronic Care Program

ACCP assists Aboriginal and Torres Strait Islander people in South Western Sydney who have or are at risk of developing a chronic condition through providing holistic, culturally appropriate health care.

Health
South Western Sydney
Local Health District

WHAT IS A CHRONIC CONDITION?

A chronic condition that affects a person for longer than 6 months. Some examples of chronic conditions include:

- *Diabetes*
- *Cancer*
- *Cardiovascular Disease*
- *Respiratory Disease*
- *Kidney Disease*
- *Mental Health*

HOW CAN THE ACCP HELP

Your Aboriginal Health Worker and Care Coordinator will support you to access the necessary services and to support you in controlling your health.

HOW TO ACCESS THE ACCP

- General Practitioner referral
- Specialist referral
- Health Professional referral
- Self-referral

WHAT WILL HAPPEN?

Once your referral has been received, an Aboriginal Health Worker or Care Coordinator from ACCP will contact you and arrange a visit.

Our Team will meet with you to discuss your needs and work towards developing a plan with your GP.

WHO IS OUR TEAM?

ACCP is staffed by a range of health professionals including:

- *Aboriginal Health Workers Nurses*
- *Allied Health Professionals*

Our clinical staff and Aboriginal Health Workers work collaboratively to ensure your needs are met holistically.
