**RE: Medical Clinics at Bankstown-Lidcombe Hospital**

Dear General Practitioner/ Specialist,

I wish to inform you of medical clinics currently available for referral at Bankstown-Lidcombe Hospital.

When making referrals, please consider nominating a specialist from the list of clinics attached to this letter. Doing so will facilitate continuity of care, clinical handover and patient-centred care, and provide a key contact for communication at the clinic.

With their consent, patients with a valid Medicare card issued a referral to a named medical specialist will not have out-of-pocket fees for the consultation. If the nominated specialist has a longer wait time than other specialists within the clinic and it is clinically appropriate, your patient may be contacted and given the option of seeing another specialist at an earlier date. If you prefer not to nominate a specialist, your patient will be seen by a medical specialist determined by the hospital, and this may vary between appointments.

Please visit HealthPathways for more information. Alternatively, you can contact the department or hospital switchboard on 9722 8000 and ask to be transferred to the clinic for more information.

Yours sincerely,

28/08/2023

**RE: Medical Clinics at Bowral & District Hospital**

Dear General Practitioner/ Specialist,

I wish to inform you of medical clinics currently available for referral at Bowral & District Hospital.

When making referrals, please consider nominating a specialist from the list of clinics attached to this letter. Doing so will facilitate continuity of care, clinical handover and patient-centred care, and provide a key contact for communication at the clinic.

With their consent, patients with a valid Medicare card issued a referral to a named medical specialist will not have out-of-pocket fees for the consultation. If the nominated specialist has a longer wait time than other specialists within the clinic and it is clinically appropriate, your patient may be contacted and given the option of seeing another specialist at an earlier date. If you prefer not to nominate a specialist, your patient will still be seen by a medical specialist determined by the hospital.

Please visit HealthPathways for more information. Alternatively, you can contact the department or hospital switchboard on 4861 0200 and ask to be transferred to the clinic for more information.

Yours sincerely,

**Bradley Warner**

**RE: Medical Clinics at Fairfield Hospital**

Dear General Practitioner/ Specialist,

I wish to inform you of medical clinics currently available for referral at Fairfield Hospital.

When making referrals, please consider nominating a specialist from the list of clinics attached to this letter. Doing so will facilitate continuity of care, clinical handover and patient-centred care, and provide a key contact for communication at the clinic.

With their consent, patients with a valid Medicare card issued a referral to a named medical specialist will not have out-of-pocket fees for the consultation. If the nominated specialist has a longer wait time than other specialists within the clinic and it is clinically appropriate, your patient may be contacted and given the option of seeing another specialist at an earlier date. If you prefer not to nominate a specialist, your patient will be seen by a medical specialist determined by the hospital, and this may vary between appointments.

Please visit HealthPathways for more information. Alternatively, you can contact the department or hospital switchboard on 9616 8111 and ask to be transferred to the clinic for more information.

Yours sincerely,

24/8/23

**RE: Medical Clinics available in Drug Health Services**

Dear General Practitioner/ Specialist,

I wish to inform you of medical clinics currently available for referral in Drug Health Services.

When making referrals, please consider nominating a specialist from the list of clinics attached to this letter. Doing so will facilitate continuity of care, clinical handover and patient-centred care, and provide a key contact for communication at the clinic.

With their consent, patients with a valid Medicare card issued a referral to a named medical specialist will not have out-of-pocket fees for the consultation. If the nominated specialist has a longer wait time than other specialists within the clinic and it is clinically appropriate, your patient may be contacted and given the option of seeing another specialist at an earlier date. If you prefer not to nominate a specialist, your patient will be seen by a medical specialist determined by the hospital, and this may vary between appointments.

Please visit HealthPathways or the GP Advice and Support Service for more information. Alternatively, you can contact the clinic directly, the Drug Health Services Intake Line (1300 031 131) or visit the Drug Health Services website: [www.swslhd.health.nsw.gov.au/drughealth/](http://www.swslhd.health.nsw.gov.au/drughealth/).

Yours sincerely,

**Dr Gilbert Whitton**

## Primary & Community Health

### RE: Medical Clinics available in Primary & Community Health

Dear General Practitioner/ Specialist,

I wish to inform you of medical clinics currently available for referrals in Primary & Community Health. A significant number of our services utilise a multi-disciplinary team care model overseen by Staff Specialists.

When making referrals, please consider nominating a specialist from the list of clinics attached to this letter. Doing so will facilitate continuity of care, clinical handover and patient-centred care, and provide a key contact for communication at the clinic.

With their consent, patients with a valid Medicare card issued a referral to a named medical specialist will have their consultations bulk-billed as a privately referred patient. If the nominated specialist has a longer wait time than other specialists within the clinic and it is clinically appropriate, your patient may be contacted and given the option of seeing another specialist at an earlier date. If you prefer not to nominate a specialist, your patient will be triaged to the most appropriate care.

Please visit *SWS HealthPathways* (<https://sws.communityhealthpathways.org>) for more information. Alternatively, you can contact the department or visit the Primary & Community [Health website: www.swslhd.health.nsw.gov.au/CommunityHealth/](http://www.swslhd.health.nsw.gov.au/CommunityHealth/)

Yours sincerely,

**Justin Duggan**  
General Manager  
Primary & Community Health
