

WESTERN SYDNEY
UNIVERSITY

Join the South Western Sydney Dementia Network

Expression of Interest Form

Western Sydney University, together with local councils, care providers, and health services, is creating the **South Western Sydney Dementia Network**.

This network will help communities become more helpful of people with dementia and their families. We will do this through teaching, training, and social programs. These will be made with and for people living with dementia.

Please fill in this form if you would like to join our South Western Sydney Dementia Network and are willing to:

- Speak up for people impacted by dementia
- Help with community activities

The network meets often to plan, deliver, and evaluate our programs and impact. The first meeting is on 2nd March 2023, where we will decide future meeting dates and goals.

Applications will be assessed by the network upon submission and a choice will be made by 1st February 2023.

If you have any questions, please contact the network lead: Dr Diana Karamacoska on email d.karamacoska@westernsydney.edu.au or mobile 0479 150 816.

Your Nomination

Your Name _____ Telephone _____

Email or postal address

List any previous experience on any networks or committees.
