

WESTERN SYDNEY UNIVERSITY

With the increasing prevalence of diabetes worldwide, every health professional in every health care context provides care to people with diabetes.

WDEP is a **free*** online clinically focused education program designed for all healthcare workers and students to promote competencies in diabetes clinical care and support of people living with diabetes.

There are currently **nine topics** which amounts to **17 CPD hours**. You **do not** need to complete the topics in one go. **WDEP** is designed to be done in **'bite-sized chunks'** to fit into your busy life!

For **free registration**, please email: full name, email address, position title and workplace to:

SWSLHD-CampbelltownWDEP@health.nsw.gov.au

Once registered, you will receive an email with further activation instructions.

***for WSU Students and Staff and SWSLHD employees.**
GPs, Practice Nurses, Pharmacists, Community Workers and RACF Staff under the South Western Sydney Primary Health Network (SWSPHN)
