

Strategic Plan 2021–2026

Vision

Better health for South Western Sydney

Mission

Enhancing and connecting care to meet our local health needs

Service Standard

To support and shape primary care services so all residents in our region can access the right care, at the right time, by the right people, at the right location

Goals

1

A healthier & more enabled community

2

A better health system experienced by General Practitioners & Primary Care Providers

3

An integrated health system that is fit for purpose

4

Primary healthcare that demonstrates value

5

A trusted & socially responsible organisation

Strategies

1.1 Empowering relevant self-management strategies according to need

1.2 Developing innovative models that ensure quality care is delivered

1.3 Partnering with our communities to ensure person-centred care

2.1 Strengthening health literacy to help the community make better informed decisions

2.2 Providing access to timely & relevant resources & communications

2.3 Engaging GPs & PCPs to ensure fit for purpose systems that contribute to improved health outcomes

3.1 Supporting & contributing value to our key stakeholders' initiatives where priorities are well-aligned

3.2 Effectively linking primary & hospital providers for improved continuity of care

3.3 Establishing multi sectorial partnerships that support the integration of health care

4.1 Developing evidence-based models of care for vulnerable & hard to reach population groups relevant to identified needs

4.2 Implementing a system for ongoing provider learning, development & diversification

4.3 Monitoring & evaluating the performance of procured services to ensure demonstrable cost effectiveness, sustainability & scalability

5.1 Systematically shaping service supply to align with both national priorities & the SWS Joint Needs Assessment

5.2 Providing strong corporate governance with public resources

5.3 Acting as a trusted custodian for investigating, linking, tracking & analysing key data

5.4 Being an organisation committed to learning through quality systems & business certification

Values

Trust

Maintain mutual respect for one another and act in good faith

Empathy

Gather insights and understandings of others' experiences

Courage

Strength to lead and innovate

Fairness

Make decisions free from bias and discrimination

Integrity

Behave honestly and accept responsibility for one's conduct

Optimism

Present a positive and constructive approach to future events
