

Best Practice – Pathology

Manually updating pathology

1. In patient file go to **Investigation reports**, click **Values**

Add values, including **Report date**, then **Save**.

The screenshot shows a medical software interface. On the left is a navigation tree with categories like 'Today's notes', 'Past visits', 'Current Rx', 'Past history', 'Immunisations', 'Investigation reports', 'Correspondence In', 'Correspondence Out', 'Past prescriptions', 'Observations', 'Family/Social history', 'Clinical images', and 'Enhanced Primary Care'. The 'Investigation reports' category is highlighted with a red box. On the right, a 'Result values' dialog box is open. The 'Values' button in the top right of the main window is also highlighted with a red box. Inside the dialog box, the 'Report date' dropdown menu is set to '31/03/2023' and is highlighted with a red box. The dialog box contains various test result fields with input boxes and unit dropdowns, such as HbA1C (mmol/mol), Total Cholesterol, Triglycerides, HDL Cholesterol, LDL Cholesterol, Creatinine, eGFR, Albumin/Creatinine ratio, Micro-albuminuria (mcg/min), and Haemoglobin (g/L). The 'Save' button at the bottom right of the dialog box is highlighted with a red box.
