# Medical Director – Pathology
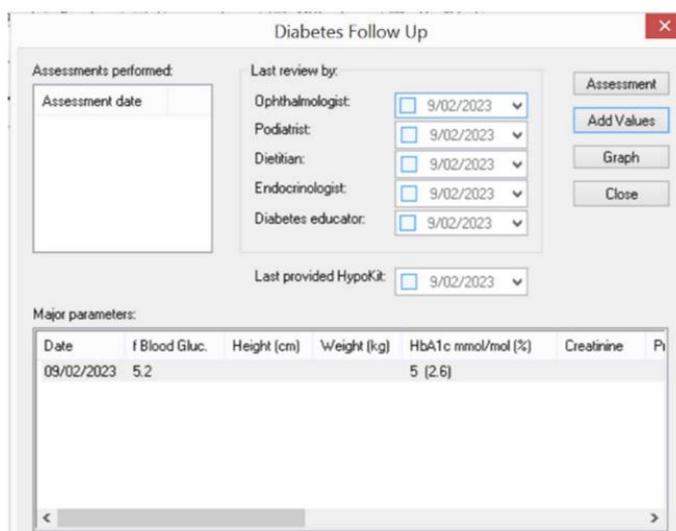

## Manually updating pathology

There are two (2) options:

**Option 1: via Diabetes Follow Up**

1. In the patient file, go to **Clinical** in menu bar, click **Diabetes Record**
   Then in **Diabetes Follow Up** box click **Add Values**
   Input pathology values, including **Date**, then **Save**.

2. Pathology results will now appear in **Major parameters** box at the bottom of the Diabetes Follow Up box.

## Option 2: via Results

1. Open patient file, click on **Results** tab, then select **Add**.

2. Enter the required details:
   **Subject**, **date requested,** and **date collected**.
   Type result in **Result** box.
   Add **Action** or **Recall** as required. Then **Save**.
