

POLAR Walkthrough

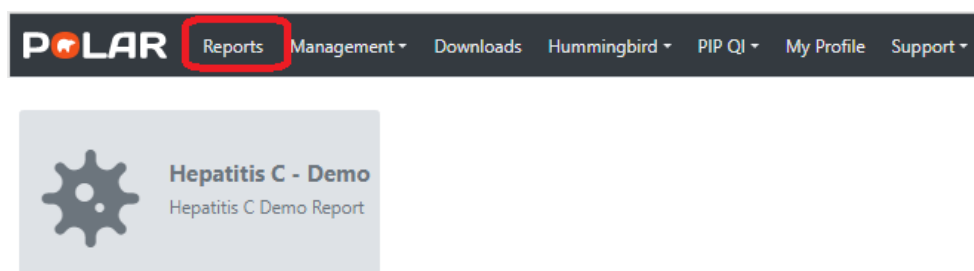

Patients with abnormal ALT > 2 years who are at risk of Hep C

Patient Cohort:

- RACGP Active (step 2)
- Patients with abnormal ALT > 2 years (step 3)
- High Flag Count: patients with more Hep C risk elements in their record (step 4)

Note: Patient cohort can be modified by adding or removing steps according to the needs of your practice.

1. Log in to **POLAR** > Click **Reports** > Click **Hepatitis C**

2. Click **RACGP Active Patients** (Filter patients who have visited your practice at least three times in the last two years)

Patient Count

30,730

RACGP Active
