

Notification of Information (NOI)

Tender Release:

Supporting Recovery FDSV Pilot Program- Local Care Teams Component

Introduction

This notification has been issued to inform the market that South Western Sydney Primary Health Network (SWSPHN) will soon commence the procurement process for the commissioning of an eligible organisation to deliver Family, Domestic and Sexual Violence (FDSV) trauma-informed Local Care Team services, within South Western Sydney.

Background

On 8 May 2023, South Western Sydney Primary Health Network (SWSPHN) was notified of a successful submission as part of the Department of Health and Aged Care (DoHAC) Supporting Recovery Pilot Program Grant. The funding will be provided to pilot a new model of trauma-informed recovery care for post-acute victim-survivors of family, domestic and sexual violence (FDSV). South Western Sydney Primary Health Network (SWSPHN) is commissioning a supplier to deliver the Local Care Team (LCT) component within South Western Sydney as part of the pilot program.

Overview of Procurement

South Western Sydney Primary Health Network (SWSPHN) is seeking to commission a supplier to deliver assessment, case management and care coordination, within a trauma-informed service to Family, Domestic and Sexual Violence (FDSV) to post-acute victim-survivors across South Western Sydney. The Local Care Team will be embedded within an existing service within South Western Sydney and develop an integrated recovery care plan based off the initial assessment. The Local Care Team will ensure referrals to FDSV trained and trauma-informed mental health care services. The Local Care Team will consist of professionals appropriately trained in FDSV-specific trauma-informed care. The service model will align with the DoHAC's Model of Care, Supporting Recovery – Pilot Program. It is a prescribed model that is part of the Australian Government's National Plan to End Violence against Women and Children 2022–2032.
