Aboriginal and Torres Strait Islander Health Assessment

There are two (2) options for completing an Indigenous Health Assessment:

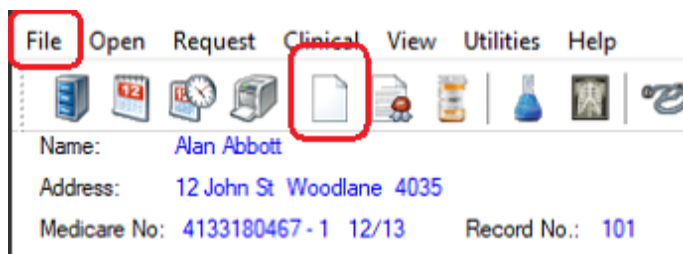

Option 1.

Using the template in the **Enhanced Primary Care** section as per steps on page 1.

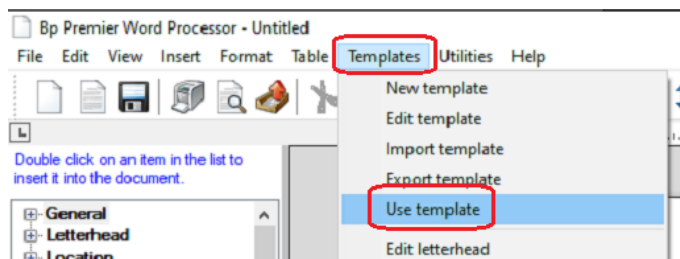

Option 2:

Using the Template in the Letter **Word Processor**

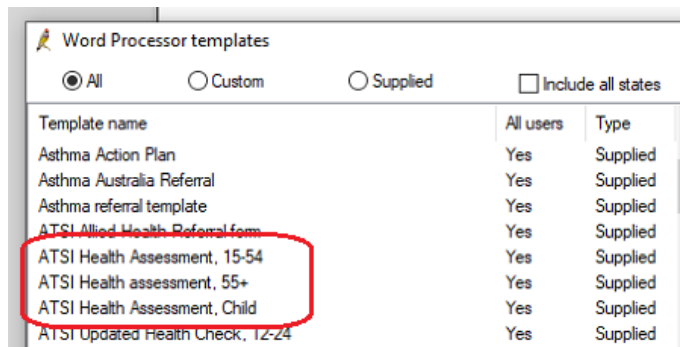

1. From patient screen either click **File > New Letter** OR click **blank paper icon**

2. Click on **Templates > Use template**

1. Select the template required for age group

A screenshot of a software interface titled "Word Processor templates". At the top, there are four radio buttons: "All" (selected), "Custom", "Supplied", and "Include all states" (checkbox). Below this is a table with three columns: "Template name", "All users", and "Type". The table lists several templates, with three rows highlighted by a red rectangle: "ATSI Health Assessment, 15-54", "ATSI Health assessment, 55+", and "ATSI Health Assessment, Child".
