

Medical Director – Coding

Hepatitis C diagnosis

1. In **Past History** select **+** to provide a new diagnosis and fill in:
 - a) Date of diagnosis
 - b) Search for the diagnosis and select a coded diagnosis from the drop-down menu
 - c) Select **Active** or **Inactive**
 - d) Other details can be completed if known

The screenshot shows the Medical Director software interface. The 'Past history' tab is selected. A 'New History Item' dialog box is open, showing a search for 'hepatit' and a list of results including 'Hepatitis B surface antigen positive', 'Hepatitis C', 'Hepatitis C carrier', 'Hepatitis C drug treatment', 'Hepatitis C eradicated', 'Hepatitis C exposure', and 'Hepatitis C infection'. The 'Active problem' checkbox is selected. The 'Year' is set to 2024 and the 'Date' is 12/03/2024.

Year	Date	Condition	Side	Status	Summary	Confidential	Coded
2019	25/02/2019	Hypertension		Active	No	No	No
2019	25/02/2019	Pain in arm		Active	No	No	No
2019	25/02/2019	Patient education		Active	No	No	No

2. The known diagnosis will be shown in **Past History** with **Active** or **Inactive** status

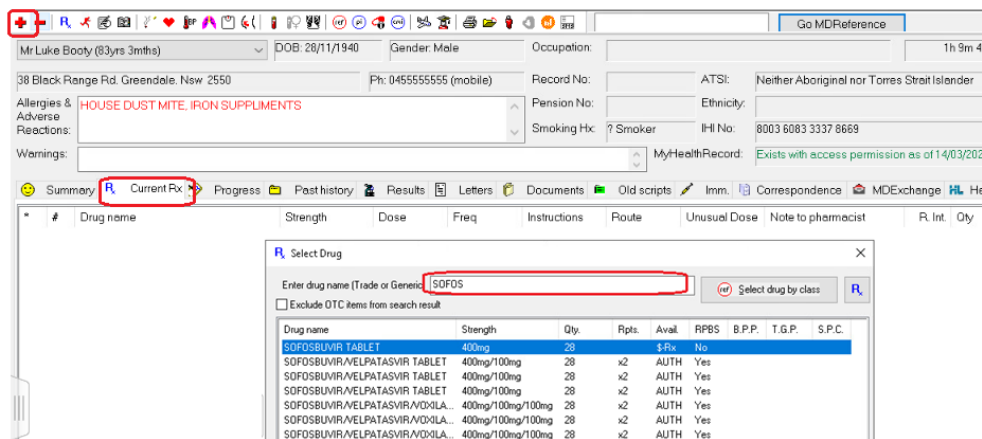

The screenshot shows the Medical Director software interface with the 'Past history' tab selected. The table below shows the past history items, with the new entry for 'Hepatitis' highlighted in blue.

Year	Date	Condition	Side	Status	Summary	Confidential	Coded
2019	25/02/2019	Hypertension		Active	No	No	Yes
2019	25/02/2019	Pain in arm		Active	No	No	No
2019	25/02/2019	Patient education		Active	No	No	Yes
2024	12/03/2024	Hepatitis		Active	Yes	No	Yes

Direct Acting Antiviral (DAA)

1. In **Current Rx** select **+**
2. Search for medication in the **drug name** search bar
3. Complete fields as required, then **OK**

Note: The steps and information below are at the doctor's discretion. The clinical decision is ultimately up to the GP who enters the data. As long as the medication is a DAA and the steps are completed to the end, POLAR can identify that this patient has been or is on a DAA.

Mr Luke Booty (83yrs 3mths) | DOB: 28/11/1940 | Gender: Male | Occupation: | 1h 9m 4s

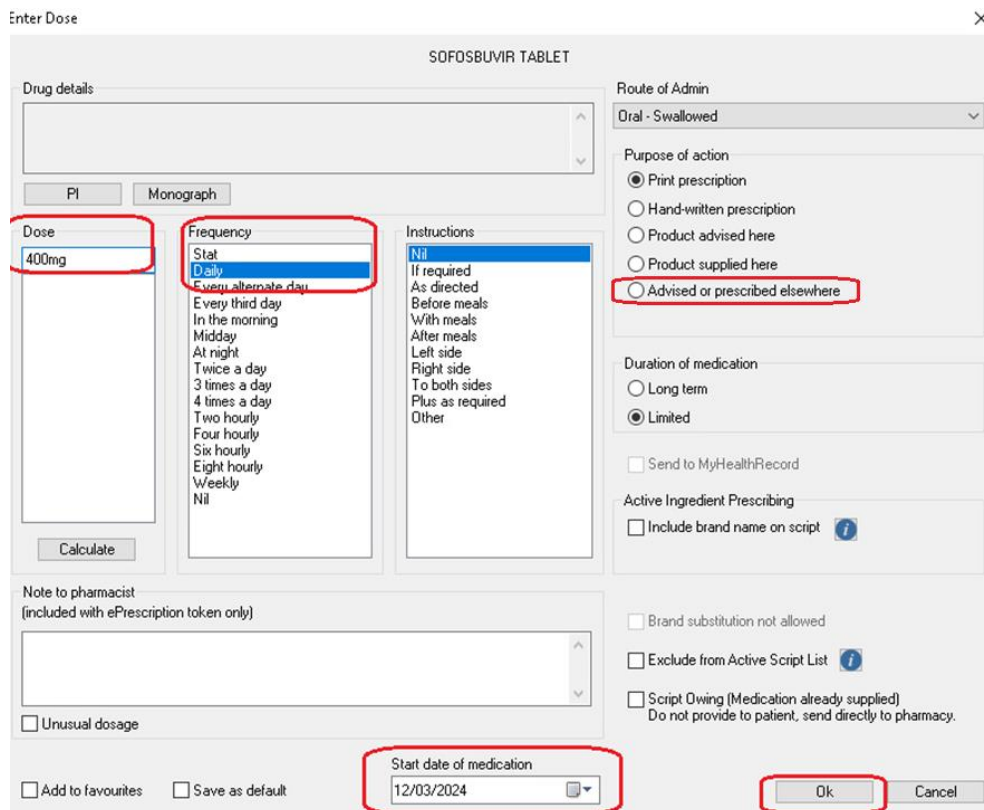

38 Black Range Rd. Greendale, Nsw 2550 | Ph: 0455555555 (mobile) | Record No: | ATSI: Neither Aboriginal nor Torres Strait Islander

Allergies & Adverse Reactions: HOUSE DUST MITE, IRON SUPPLIMENTS | Pension No: | Ethnicity: | Smoking Hx: ? Smoker | IHI No: 8003 6083 3337 8669

Drug details

PI | Monograph

Dose: 400mg

Frequency: Daily

Instructions: Nil

Route of Admin: Oral - Swallowed

Purpose of action:

- Print prescription
- Hand-written prescription
- Product advised here
- Product supplied here
- Advised or prescribed elsewhere

Duration of medication:

- Long term
- Limited

Active Ingredient Prescribing:

- Include brand name on script
- Brand substitution not allowed
- Exclude from Active Script List
- Script Dwing (Medication already supplied) Do not provide to patient, send directly to pharmacy.

Note to pharmacist (included with ePrescription token only)

Unusual dosage:

Start date of medication: 12/03/2024

Ok | Cancel

Note: In this section, you can indicate that this medication was prescribed or advised elsewhere. It will be seen in the **Current Rx**, however, POLAR will not pick this information up.
