Meet your presenters

Dr Michael Cardoso
Radiation Oncologist

Dr. Cardoso is a radiation oncologist with sub-speciality interests in breast cancer, skin cancer, prostate cancer, bladder cancer, brain cancer, stereotactic radiotherapy, and palliative care.

Dr. Cardoso is an active member of several leading cancer clinical trial groups, and is passionate about providing evidence-based and personalised care to his patients while working within a multidisciplinary team.

Dr Andrew Ong
Breast, Endocrine & General Surgeon

Dr Ong is appointed at Campbelltown Public (Senior VMO) and Campbelltown Private hospitals, Sydney Southwest Private hospital (Liverpool), Hurstville Private Hospital, Strathfield Private hospital and The George Centre. He is a member of BreastSurgANZ and ANZ Endocrine Surgeons. He is the general surgery representative for the Medical Advisory Committee at Campbelltown Private hospital

Dr Belinda Kiely
Medical Oncologist

Dr Kiely is a medical oncologist at both Concord and Campbelltown hospitals. She specialises in the treatment of breast cancer. Dr. Kiely is also a clinical research fellow at the NHMRC Clinical Trials Centre, University of Sydney. Her main research interest is improving the way oncologists estimate and explain survival time to patients with advanced cancer and this was the subject of her PhD.

Dr Saima Batool
Radiologist

Dr Batool is a Radiologist working in Western Sydney as well as one day as a VMO Paediatric Radiologist at Campbelltown hospital. Dr Batool carried out extensive research on Quantitative Analysis on brain volume in hypertensive patients. Dr Batool was also selected into a fellowship in Pediatric Radiology & Pediatric Cardiac MRI at CPSA, Canada

Hope Spencer
Oncology Lymphoedema Physiotherapist

Hope's focus is on helping people who have been diagnosed with cancer optimise their health and wellbeing. Hope works with people at all stages of diagnosis and treatment, using her knowledge and skills to prevent, treat and manage the side effects of cancer and cancer treatment. Through the use of hands on treatments and exercise, Hope works with her patients to enhance quality of life and improve survivorship

Dr George Papadatos
Radiation Oncologist

Dr George Papadatos is a senior radiation oncologist who has been managing patients with cancer, in the South-West Sydney and Southern Highlands areas, for over 20 years. He is actively involved in registrar and medical student teaching and has been a conjoint lecturer and examiner at the UWS Medical School.
